Payment system solutions with TFCU Business

Most businesses choose to accept credit cards as a form of payment, but which company you trust your customers' checkout experience with is not an easy decision. Tinker Federal Credit Union (TFCU) is a local name that is here to offer reliable service to your business and shoppers.

What is a point-of-sale system? A point-of-sale (POS) system is the modern cash register with integrated hardware and software that allows a business to accept credit and debit card payments. The POS system that TFCU provides can be tailored to meet the unique needs of your business.

"Using a local source for your POS means local service. TFCU will provide a no-cost analysis of your business needs and create a custom package made just for your business."

Accepting online or in-person payments?

The choice is yours. TFCU also offers portable payment terminals that integrate with your mobile phone for offsite sales and the versatility of accepting virtual, mobile and online payments. The equipment is provided at no charge, and the terminal fees are typically lower than other systems.

How can a POS system help my business?

A POS system helps organize sales and can even be programmed to track inventory. This makes tax preparation and bookkeeping much easier. The system can even create sales reports and other

sales analytics to help identify cash-flow patterns.

Why should I consider TFCU's POS system?

Using a local source for your POS means local service. TFCU will provide a no-cost analysis of your business needs and create a custom package made just for your business. TFCU can also provide other local wraparound services that support the growth of your business. Whether you need a business credit card or ACH transactions for payroll, TFCU has you covered.

Get more from your payment system, with a local name you trust. \\\
